Select Brew is the revolutionary way to brew the Gold Cup Standard in quality coffee each and every time.

Select Brewer

Easy Set-Up! Set-up on the Select Brewing System is easy. Simply plumb in water supply, plug in the system's built in cord, and turn the machine on. The Select Brew System will sense a dry probe and begin filling the tank automatically. Once the water in the tank has reached the proper level, the element will automatically turn on and begin heating. In minutes, the correct brewing temperature will be reached, and you're ready to brew!
